

OWL Access Code Guide

Students: You need an Access Code (Pincode) to use OWL. Access Codes can be obtained in a number of ways: packaged with the purchase of a new textbook, purchased separately from the book store, or purchased online. Access Codes are good for either 6 months (one semester) or 12 months (two semesters).

Packaged with Textbook

Professors: Printed Access Code cards can be packaged at a discount with any Cengage Learning chemistry textbook. You will need the correct ISBN number for ordering the text packaged with the OWL Printed Access Code card. Please contact your Cengage sales representative for pricing and ordering information.

Sold Separately at Book Store

Professors: Printed Access Code cards can also be ordered by your bookstore as a stand alone item to be made available for students who purchase a used textbook. Please contact your Cengage sales representative for pricing and ordering information.
